1. Notification status

The components of the product are listed in the following countries

| TCSI | On the inventory, or in compliance with the inventory |
|-------|---|
| TSCA | All substances listed as active on the TSCA inventory |
| AIIC | On the inventory, or in compliance with the inventory |
| DSL | All components of this product are on the Canadian DSL |
| ENCS | Not in compliance with the inventory |
| ISHL | Not in compliance with the inventory |
| KECI | Not in compliance with the inventory |
| | For further information please contact us at: trm@alberdingk-boley.de |
| PICCS | Not in compliance with the inventory |
| | For further information please contact us at: trm@alberdingk-boley.de |
| IECSC | On the inventory, or in compliance with the inventory |
| NZIOC | On the inventory, or in compliance with the inventory |
| TECI | Not in compliance with the inventory |

| 2. REAC | н | | | |
| Chemical Legislation | | | REACH EU | |
| | | | All components of the product are registered or are exempt from the registration under the REACH regulation. | |
| SVHCs (Substances of Very High Concern) | | | The product doesn't contain any SVHCs in concentrations $>= 0.1\%$ (w/w). | |
| | | | In case any of the substances used in our products will be categorized in future as SVHC under REACH or added to the substance list of Annex XIV, this component will be mentioned in section 3 | |

Restrictions acc. to Annex XVII

All substances which are restricted for certain uses according to Annex XVII of the REACH regulation are listed in section 15 of the Safety Data Sheet.

of the EU Safety Data Sheet if the concentration is >= 0.1% (w/w). Any change concerning this matter will be communicated immediately to our customers via the updated Safety Data

ALBERDINGK BOLEY

Sheet.

Chemical Legislation

UK REACH

We and/or our suppliers have submitted DUINS (Downstream User Import Notifications) for all relevant components of our product via an OR (Only Representative). We would like to point out that the DUIN submitted by our OR may not cover your import. Therefore, as our customer, please check whether you are allowed to import this product to GB. If you have any questions, please contact our Team Regulatory Management: trm@alberdingk-boley.de

3. Components/Ingredients Information

In-Can Preservation [ca. ppm]

1,2-benzisothiazol-3(2H)-one (CAS 2634-33-5) 250

reaction mass of 5-chloro-2-methyl-2H-14 isothiazol-3-one and 2-methyl-2H-isothiazol-3one (3:1) (CAS 55965-84-9)

Note

According to the EU Biocide Regulation (528/2012/EU), aqueous polymer dispersions are treated articles if they contain ("are treated with") biocidal products for in-can preservation. As such the dispersions don't need to be labelled unless the approval of the applied active substances require so, or a biocidal property for the product is explicitly claimed. The biocides are added only to assure the shelf life of the product during storage and transport to the customer. They are not meant to exert a downstream biocidal effect.

Neutralising Agent [ca. %]

ammonia (CAS 1336-21-6) 0,2

Undesirable or Restricted Substances

APEO

See Section 3 SDS.

See Section 3 SDS.

6. Further Information

Disclaimer

The raw materials used for the production of Alberdingk® or Albodur® products are technical raw materials and therefore can contain process-related additives and impurities. We don't check the content of these substances as part of our quality system. Due to the variety of raw materials used, Non-Intentionally Added Substances (NIAS) cannot be completely excluded. This information has been compiled to the best of our knowledge and is based on information provided by the raw material manufacturers. Alberdingk Boley GmbH assumes no obligation or liability for use of or updating this information and gives no warranty. The customer is solely responsible for compliance with any applicable federal, state or provincial law.

All regulatory information listed here is only valid for products manufactured in the European Union.
