2. REAC			
2. REAC			
Chemica	l Legislation		REACH EU
			All components of the product are registered or are exempt from the registration under the REACH regulation.
SVHCs (Substances of Very High Concern)		High	The product doesn't contain any SVHCs in concentrations $>= 0.1\%$ (w/w).
			In case any of the substances used in our products will be categorized in future as SVHC under REACH or added to the substance list of Annex XIV, this component will be mentioned in section 3 of the EU Safety Data Sheet if the concentration is $\geq 0.1\%$ (w/w). Any change concerning this matter will be communicated immediately to our customers via the updated Safety Data Sheet.
Restrictions acc. to Annex XVII		(VII	All substances which are restricted for certain uses according to Annex XVII of the REACH regulation are listed in section 15 of the Safety Data Sheet.

Version

1.3

Date of last issue: 09.01.2024

We and/or our suppliers have submitted DUINS (Downstream User Import Notifications) for all relevant components of our product via an OR (Only Representative). We would like to point out that the DUIN submitted by our OR may not cover your import. Therefore, as our customer, please check whether you are allowed to import this product to GB. If you have any questions, please contact our Team Regulatory Management: trm@alberdingk-boley.de

3. Components/Ingredients Information

In-Can Preservation [ca. ppm]

1,2-benzisothiazol-3(2H)-one (CAS 2634-33-5) 315

Article-No.:

274177

reaction mass of 5-chloro-2-methyl-2H- 14 isothiazol-3-one and 2-methyl-2H-isothiazol-3one (3:1) (CAS 55965-84-9)

Note

According to the EU Biocide Regulation (528/2012/EU), aqueous polymer dispersions are treated articles if they contain ("are treated with") biocidal products for in-can preservation. As such the dispersions don't need to be labelled unless the approval of the applied active substances require so, or a biocidal property for the product is explicitly claimed. The biocides are added only to assure the shelf life of the product during storage and transport to the customer. They are not meant to exert a downstream biocidal effect.

Neutralising Agent [ca. %]

ammonia (CAS 1336-21-6)

0,2

Undesirable or Restricted Substances

APEO	See Section 3 SDS.
CMR Substances	See Section 3 SDS.
Dimethylacetamide (CAS 127-19-5)	This (These) substance(s) is (are) not intentionally added during production.

		This (These) substance(s) is (are) not intentionally added during production.
Formaldehyde		This (These) substance(s) is (are) not intentionally added during production.
Organotin Compounds		This (These) substance(s) is (are) not intentionally added during production.
Ozone depleting substan	nces	This (These) substance(s) is (are) not intentionally added during production.
Phthalates		This (These) substance(s) is (are) not intentionally added during production.
PFAS (Per- and polyfluorinated Substances)		This (These) substance(s) is (are) not intentionally added during production.
incl. PFOS and PFOA Cumen (CAS 98-82-8)		This (These) substance(s) is (are) not intentionally added during production.
Bisphenol A		This (These) substance(s) is (are) not intentionally added during production.
Regulation (EU) 2019/1021 (Persistent Organic Pollutants)		This (These) substance(s) is (are) not intentionally added during production.
Heavy metals	Heavy metals are not intentionally added during production (Antimony, Arsenic, Barium, Cadmium, Chromium, Cobalt, Lead, Mercury, Nickel, Selenium, Tin).	
RoHS	No prohibited substances are used or intentionally added that fall within the scope of Regulation 2011/65 EC and subsequent amendments.	
Conflict Minerals		nflict minerals Tantalum, Tin, Tungsten and Gold tintentionally added during production.

4. Food Contact Regulations

BfR XIV	The composition of the product doesn't comply with the mentioned requirements of the recommendation of BfR (Federal Institute of Risk Assessment).
Regulation (10/2011/EU)	The composition of the product doesn't comply with the

5. Miscellaneous

Safety of Toys DIN EN 71-3	The production of a formulation with the respective compliance is possible.
Safety of Toys DIN EN 71-9	The production of a formulation with the respective compliance depends on the application. You will receive further information upon request.
EU Ecolabel (2014/312/EU)	The production of a formulation with the respective compliance is possible.
Nanoparticles	The polymer particles in polymer dispersions - including those on the nano-scale - are not individually available during the life cycle of the product.
Information Concerning Animal Ingredients	This product is free from animal ingredients; it is not made from animal source.
