

# Technical data sheet

### ALBOTHIX 82-32

### **Characteristic:**

Albothix 82-32 is at room temperature a white wax-like powder. It consists of fine-milled hydrogenated Castor oil (HCO).

Specification:			According to:
Acid value	mg KOH/g	max. 2	ASTM D 1980
Gardner colour value		max. 2	ASTM D 1544
Hydroxyl value	mg KOH/g	min. 155	ASTM D 1957
Further typical data*:			According to:
Iodine value acc. to Wijs	g Iod/100g	max. 2.5	ASTM D 1959
Melting point	°C	min. 85	ASTM D 5440
Particulate passage	%	min. 99	
by 32 µm			
Particulate passage	%	100	
through 44 µm			

#### **Applications:**

Albothix 82-32 a thixotropic thickening agent for solvent based coating formulations and for polyol systems. It is especially suitable for low and medium polar systems (aliphatic solvents).

### **Properties:**

property rights are to be considered if required.

Albothix 82-32 acts as a strong thixotropic agent in solvent-based coating systems and polyols. Thereby the sagging of the liquid coating at perpendicular surfaces is avoided. Furthermore, the sedimentation of fillers and pigments is reduced.

# Technical data sheet

## ALBOTHIX 82-32

### **Dosage and Incorporation:**

The addition level depends on the desired effect and usually is in the range of 0.2 to 1.5% of Albothix 82-32. A good incorporation is achieved by means of a dissolver with high shear power. It is important to work within a temperature range from about 30 °C to max. 50-55 °C. Besides the direct addition, a preformulated paste can be prepared consisting of up to 20% of Albothix 82-32 in solvent which shortens the necessary gelling and incorporation time.

### Storage:

When stored in tightly sealed packaging, protected from light and at temperatures from + 10 °C to + 30 °C, the specification parameters remain stable for at least 12 months from the production date.

### Safety:

For further information on product safety please refer to the current safety data sheet.

### **Notice:**

\* General information - the values can not be considered as part of the product specification.
