

## Preliminary technical data sheet

### ALBERDINGK® CUR 920 VP

**Characteristic:**

Physical drying, waterbased, anionic, solvent free, aliphatic polyurethane dispersion based on castor oil.

**Specification:**

Solids content	%	29.0 - 31.0
----------------	---	-------------

**According to:**

ISO 3251  
0.5 g weighed quantity at  
105°C

pH- value		7.0 - 8.5
-----------	--	-----------

Viscosity	mPas	20 - 200
-----------	------	----------

ISO 976

ISO 2555, Brookfield RVT  
Spindle 1/rpm 50/factor 2

**Further typical data\*:**

MFFT	°C	ca. 0
------	----	-------

Density	g/cm <sup>3</sup>	1.0 - 1.1
---------	-------------------	-----------

**According to:**

ISO 2811-1

**Applications:**

For high quality hardwood floor and furniture coatings with:

- outstanding wood warming "Anfeuerung"
- fast hardness development
- high gloss
- good chemical resistance
- low cosolvent demand

# Preliminary technical data sheet

## ALBERDINGK® CUR 920 VP

### Storage:

In originally closed containers ALBERDINGK-dispersions are stable when stored at 20°C for 6 months after delivery date. The recommended temperature-range for storage is 5 - 30°C. Freezing or storage at higher temperatures than 30°C, can affect the viscosity or the average particle size and finally lead to a sedimentation or coagulation. A contamination with bacteria, fungi or algae can damage the product irreversibly. The product is only preserved for the transport. For a longer storage time, we recommend to add additional preservative. A warranty for the sterility after storage can not be granted. ALBERDINGK BOLEY GmbH assures that the data mentioned under "specification" are stable for 6 months after delivery date, if the product is stored under the recommended conditions. A longer storage does not mean that the product is not usable anymore, but we recommend to check the specification data before use. A warranty after 6 months of storage can not be given by ALBERDINGK BOLEY GmbH. The product should be stirred well before use.

### Packaging:

plastic drums (120 kg)  
one-way container (approx. 1000 kg)  
as bulk in tank cars, by agreement.

### Safety:

For further information on product safety please refer to the current safety data sheet.

### Notice:

\* General information - the values can not be considered as part of the product specification.
