#### **Applications:**

Raw linseed oil is the initial product for refined linseed oils.

#### Storage:

The storage life can be guaranteed for minimum 12 months in tightly locked containers and at a temperature of + 10 °C up to + 30 °C.

A turbidity of the oil due to coldness is in most cases reversible and can be removed by warming it up to ca. 65 °C. Due to natural variations in the crude Linseed oil, a persistent turbidity can not be excluded in all cases.

#### Safety:

For further information on product safety please refer to the current safety data sheet.
