

Overview

ALBERDINGK® AS 2688

Product number: 000000000000274465

Description

ALBERDINGK® AS 2688 is an aqueous, fine disperse copolymer dispersion free of plasticizers and protective colloids.

For wood, metal and plastic coatings. Alone or in combination with polyurethane dispersions. For primers on wood with very good appearance suitable and high gloss white good blocking resistance.

Product information

Minimum film forming temperature (MFFT) (°C):	40
Multi phase:	No
Self crosslinking (SXL):	No
Solids content:	43.0 - 45.0
Viscosity (Brookfield RVT) (mPas):	500 - 3,000
pH-value :	7.5 - 8.5
Applications:	• Metal • Metal > Primer • Plastic • Plastic > ABS • Plastic > ABS/PC (Bayblend T65 XF) • Plastic > PA 6 (Perlon) • Plastic > PA 6.6 (Nylon) • Plastic > PC • Plastic > PET • Plastic > PS • Plastic > PVC flexible • Plastic > PVC rigid • Plastic > Xenoy CL 100 (PBT+PC) • Wood • Wood > Furniture pigmented • Wood > Furniture transparent
