

Overview

ALBERDINGK® Blown Castor Oil 30 dPa s

Product number: 000000000000310820

Description

Blown castor oil is a polymerized castor oil won by oxidation with atmospheric oxygen in heat.

Used as a non-volatile and non-migrating plasticizer in appropriate varnish raw materials. Another application sector for blown castor oil is for special hydraulic oils and further – like castor oil – as a polyol component in polyurethane systems.

Product information

Acid Value:	0.0 – 9.0
Gardner color (Units):	0.0 – 8.0
Hydroxyl value:	160
Saponification value:	0
Viscosity (Hoeppler) (dPas):	27.00 – 33.00
Applications:	• Printing inks
