

Overview

ALBERDINGK® U 9000

Product number: 000000000000271202

Description

Waterbased, aliphatic polycarbonate polyurethane dispersion with N-Butylpyrrolidone.

For metal pre-treatment with very good corrosion resistance and excellent chemical resistance.

Product information

2-pack:	Yes
Minimum film forming temperature (MFFT) (°C):	0
Solids content:	27.0 - 30.0
Viscosity (Brookfield RVT) (mPas):	50 - 1,000
pH-value :	7.0 - 8.5
Applications:	• Building & Construction • Coating for electroplated surfaces pH neutral • Flooring • Flooring > LVT/Vinyl/PVC • Glass coatings • Metal • Metal > Chrome free pre-treatment neutral pH • Metal > Topcoats • Plastic • Plastic > PA 6.6 (Nylon) • Plastic > PVC flexible • Plastic > PVC rigid • Plastic > PVC windows • Wood • Wood > Furniture transparent
