

Overview

ALBERDINGK® AC 2433 VP

Product number: 000000000000274103

Description

Single-phase, selfcrosslinking acrylate dispersion.

For high quality metal coatings with superior wet adhesion and corrosion resistance. Suitable for DTM and primer applications.

Product information

Minimum film forming temperature (MFFT) (°C):	20
Multi phase:	No
Self crosslinking (SXL):	No
Solids content:	43.0 - 45.0
Viscosity (Brookfield RVT) (mPas):	10 - 1,000
pH-value :	8.5 - 9.5
Applications:	• Building & Construction • Building & Construction > Trimpaints • Metal • Metal > DTM • Metal > Primer • Wood • Wood > Furniture pigmented • Wood > Furniture transparent
