

Overview

ALBERDINGK® Castor Oil Polymerized 1 VP (COP 1)

Product number: 000000000000310251

Description

Polymerized castor oil won from Castor oil by oxidation with atmospheric oxygen in heat.

It is used - like castor oil - as a polyol component in polyurethane systems. In PU resins it leads to a higher hydrolysis resistance (loss of hardness) compared to Castor oil.

Product information

Acid Value :	0.0 - 3.0
Gardner color (Units) :	0.0 - 5.0
Hydroxyl value :	172
Saponification value :	0
Viscosity (Hoeppler) (dPas) :	11.00 - 14.00
